EDUCATIO N

**Jomo Kenyatta University of
Agriculture and Technology
(JKUAT)**
2022 - Present

BSc. Computer Science | Year 4,
Semester 2

Mangu High School
2018 - 2022
Kenya Certificate of Secondary
Education (KCSE) Grade A(minus)

Freds Academy
2015 - 2017
Kenya Certificate of Primary Education
(KCPE)
Achieved 433 marks out of 500 Grade
A (plain)

LANGUAGES

English
Swahili
Intermediate French

PROFESSIONAL SUMMARY

Detail-oriented and versatile **Software Engineer** with strong experience in full-stack development, cloud platforms, and modern software architecture. Skilled in building scalable systems, designing efficient APIs, and delivering end-to-end solutions across web and backend environments. Passionate about integrating DevOps practices and continuously learning new technologies. My Professional Portfolio can be viewed from the pasted link: [Kratos Systems Limited](#)

KEY PROJECTS

GlycoSafe - AI-Powered Diabetes Management App

2024 - Present

Data Engineer & UI/UX contributor

Played a key role in data acquisition, cleaning, and preprocessing to optimize YOLOv8 models for segmentation, classification, and 3D modeling. Designed and refined the data pipeline, ensuring high-quality labeled datasets for maximum model accuracy. Contributed to fine-tuning the machine learning models and improving data augmentation strategies. Additionally, provided input on UI/UX design, enhancing user interaction and experience.

SokoFresh EA - Cold Storage & Inventory Platform

2024- 2025

Full Stack Software Engineer & Dev-ops

- Developed a Progressive Web Application (PWA) to digitize cold storage operations.
- Provides real-time visibility and automated workflows for inventory, equipment, and logistics at an enterprise scale.
-

CERTIFICATIONS & TRAINING

- AWS Cloud Architect (Ongoing)
- AWS Security Specialty / Cloud Security (Ongoing)

REFERENCES:

Referee Contact Details shall be availed upon request.

Leadership & Experience

- **Founder & Product Engineer — Kratos Systems**
Built and shipped full-stack applications (React/TypeScript frontends + backend APIs), including inventory/POS and management dashboards.
- Designed REST APIs, data models, and role-based workflows; improved reliability through validation, logging, and error handling.
- Delivered production-ready UI with performance and usability in mind (responsive layouts, reusable components, clean UX).
- Implemented automation and data workflows (integrations, reporting, backups), reducing manual operations and improving accuracy.

Tech Consultant - Cybersecurity & Cloud Solutions

- Provided penetration testing services and security audits for SMEs.
- Assisted organizations in migrating to cloud platforms, optimizing high-availability (HA) architectures. Conducted workshops on RAID systems, Site Reliability Engineering (SRE), and DevOps automation.

Pioneer Public Relations Officer - Mangu High School Rotary Club

- Spearheaded public relations efforts for the Rotary Club, promoting community service initiatives and charity events.
- Organized and led outreach programs to foster engagement and support for local causes.

Volunteer - Malindi Red Cross

- Participated in humanitarian efforts, including disaster response and community health programs.
- Collaborated with teams to provide aid and raise awareness about emergency preparedness.

Technical Skills

- **Programming:** Python, Go-language, Java, JavaScript, Bash scripting,Rust.
- **Cloud & DevOps:** Google Cloud, AWS, Ansible, Docker & Kubernetes.
- **Cybersecurity:** Threat Modeling, Secure Software Development, Web Application Security, OWASP Practices
- **Software Development:** Full-stack web development, API design,Microservices, System Architecture
- **Databases:** MySQL, PostgreSQL, Firebase, MongoDB, Redis, SQLite
- **AI & Data Analysis:** Machine Learning(Yolo V8), Data Science & Analysis (NumPy, SciPy, PyTorch, Pandas and Matplotlib)

Let’s build the future of technology together!
